3. Business Model Diagram	5

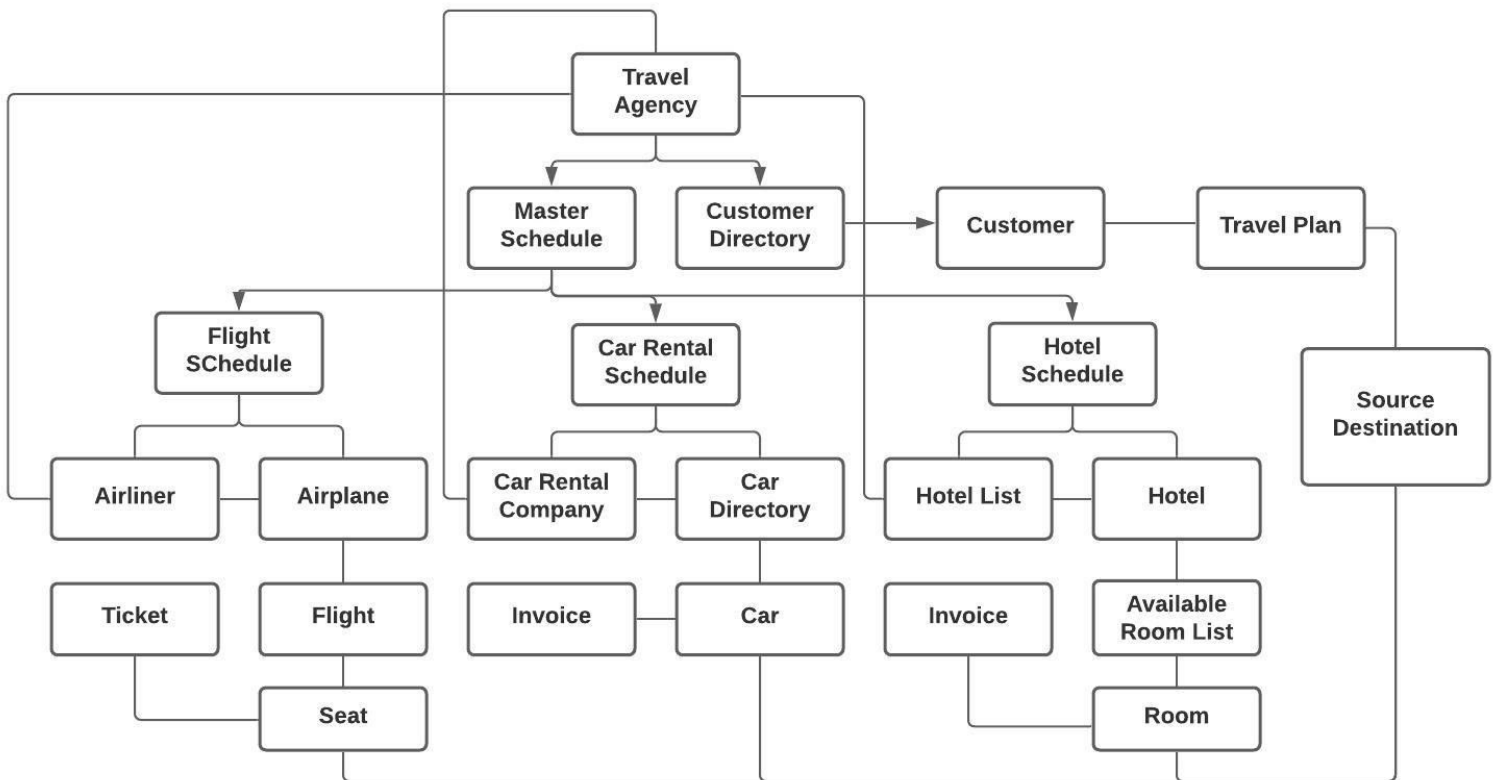

1. Introduction

Objectives:

- The travel agency will provide the customer with the following services:
 - 1) Flight Bookings
 - 2) Hotel Room Bookings
 - 3) Car Rentals
- The admin would be able to add, delete and modify multiple flights, hotel rooms for hotels and cars in a car rental company
- Travel agency can also book a travel plan for its customer having multiple intervals/stops and secondary travel plans.

2. Object Model Diagram:

- The Travel Agency is the main object.
- The object model or the project can be traversed using the master schedule.

3. Business Model Diagram

- The travel agency would have the following 4 sections:
 - 1) Cars
 - 2) Customers
 - 3) Airlines
 - 4) Hotels
